U.S. ACTS TO FORCE BLACKMER RETURN 16 Cities Seek G.O.P. And Democratic Conventions

BIDDERS FOR MEETS OPEN CAMPAIGNS

Detroit, Cleveland, Kansas City and San Francisco Favored by Republicans

MAKE SELECTIONS SOON

Michigan Metropolis, Denver Are Considered Best Bets for Bourbon Choice

BY PAUL R. MALLON
(United Press Staff Correspondent)
WASHINGTON, Nov. 16.—Campaigns of cities seeking the Republican and Democratic national conventions for next June opened formally here today with 10 definitely entered for the big show of Republicans and 11 competing for the Democratic political exposition.

The Republican national committee will meet here December 6 to select one of the 10, while the Democratic choice will be made January 12.

Kansas City, Detroit, Cleveland and San Francisco are considered by party leaders to be leading the rest for Republican honors, while Detroit and Denver are similarly heralded as best bets among the Democrats.

Minneapolis Bid Tentative
Other cities entered for the Republican convention include Seattle, San Antonio, Omaha, Chicago, Denver and Philadelphia. Minneapolis has a bid, but it is regarded as tentative.

Those nominated for the Democratic convention besides Detroit and Denver are Boston, Chicago, Miami, Omaha, Indianapolis, San Francisco, Atlantic City, Cleveland, Minneapolis and St. Paul.

If President Coolidge is to be renominated, Republican leaders would like to return to Cleveland, where they had such satisfactory arrangements in 1924. If not, another spot must be picked.

Many have indicated they would

COURT SUSPENDS ACTOR'S SENTENCE

LOS ANGELES, Nov. 16.—Charlie Chase, motion picture comedian, was given 50 days' suspended jail sentence in municipal court here today when he pleaded guilty to a charge of being drunk.

Chase was arrested several nights ago when he did not stop after his car had hit a taxicab. He was at first charged with driving while intoxicated, but the count was changed to drunkenness only, when he agreed to plead guilty.

Actress Named In Income Tax Liens

LOS ANGELES, Nov. 16.—Income tax liens filed here by the government named Mary Miles Minter, once prominent screen star, and Mrs. Charlotte Shelby, her mother.

Miss Minter owes \$187,491.83 for the years 1921, 1922 and 1923, the suit indicated. Mrs. Shelby is said to owe \$28,428.17 for the same period.

BURON FITTS

LOS ANGELES, Nov. 16.—An operation to remove bad bone from the right leg of Lt.-Gov. Buron Fitts, performed here today, was declared "very successful" by authorities at California Lutheran hospital. The operation was the seventeenth performed on the limb, injured in the Argonne offensive in the World war.

Fitts, 50, was charged with the murder of his wife, Imogene, today moved to subpoena James J. Davis, secretary of labor, so that immigration records could be introduced in defense of the former king of bootleggers.

Judge Chester R. Shook, after lengthy debate between Remus and Charles P. Taft II, county prosecutor, overruled the motion.

Remus said that if the records were brought into court he could prove that Mrs. Remus and Franklin L. Dodge, former operative of the department of justice, conspired to have him deported.

Whether Remus was insane at the time the crime was committed today had emerged as the paramount issue of the case.

By permitting Remus to question prospective jurors and serve as his own counsel, Judge Shook relegated to minor importance the question of Remus' present state of mind.

Although the three alienists appointed by the court still may report to Judge Shook that Remus now is insane, the possibility was considered unlikely.

Only his mental powers as of October 6, the day he shot and killed his wife, while she was on her way to appear against him in a divorce hearing, vitally affect the trial.

The alienists, Doctors Charles E. Kiely, David L. Wolfstein and A. E. Baber, attend every session of the trial to watch Remus' actions.

CONTINUE HUNT FOR BODIES OF BLAST VICTIMS

Probe Will Not Be Started
Until All Missing Are
Accounted For

BY ROSS DOWNING
(United Press Staff Correspondent)
PITTSBURGH, Nov. 16.—The army of recruits pushed forward with renewed vigor today to extract the dead from the debris of Pittsburgh's fatal gas explosion.

The bodies recovered stood at 26, the missing numbered more than 30 and 25 injured still are in hospitals.

A rescue squad, which for two days has concentrated its efforts on the ruins of the Pittsburgh Clay Pot company, adjoining the exploded tanks of the Equitable Gas company, has penetrated the lower levels of the building where the bodies of the 25th and 26th men were found.

"Our first aim is to account for all the dead and missing," County Warden W. J. McGregor said. "An intensive investigation into the cause and responsibility of the blast will not be made until the rescue work has ended."

Tottering buildings added to the hazardous conditions under which rescuers worked.

All wrecked buildings in the district were being inspected by officials of the city department of public works and all unsafe structures were ordered razed. Repair work was going forth on slightly damaged dwellings on the fringe of the wasted plot.

75 CHILDREN SAVED FROM FIRE BY NUNS

GRAND RAPIDS, Mich., Nov. 16.—Seventy-five children were rescued within five minutes after fire broke out in the main building of Mount Mercy academy early today. Awakened by smoke, Sister Leone circulated an alarm and led 42 other nuns to the children's dormitories on the top floor.

Thirty babies, asleep in their cribs, were gathered into the arms of the nuns. The other nuns roused the older children and marched them, without confusion, down a stairway. They were taken in their night clothes to an adjoining building.

NOTED PASTOR IS KILLED BY TRUCK

CHICAGO, Nov. 16.—The Rev. Fred Vermilla Hawley, outstanding figure in the Unitarian church of the United States, met instant death here when he was struck by a truck.

The accident occurred when the Rev. Mr. Hawley stepped from a street car. Edward Gray, driver of the truck, was taken into custody.

CAMDEN, N. J., Nov. 16.—America's first born of the Washington disarmament conference—the U. S. S. Saratoga—today attained its maturity and ascended to the title of Uncle Sam's largest warship.

This husky 33,000-ton hull, originally designed and laid down as a battle cruiser under the 1926 naval program, was completely redesigned and converted to an airplane carrier as a result of the arms limitation conference of 1921.

Today, in the presence of high naval, military and aviation officers, the Saratoga will be placed formally in commission as a unit of the navy in her slip at the American Brown Boveri corporation's shipyard and within two months will take her place with the U. S. battle fleet in the Pacific as flagship of the aircraft squadron.

The ship is commanded by Capt. Harry Yarnell.

The Saratoga and a sister ship, the Lexington, being built at Fore River, Mass., are the largest vessels ever constructed in the western hemisphere and will cost \$40,000,000 each.

Though reduced 10,000 tons in their conversion from battle cruisers, the vessels, through their immensity in dimension and bulk and in their strange, awkward appearance, almost completely destroy the effect of the commonly accepted impression of "ship" and convey more the impression of a gigantic sea monster of steel.

WATER APPLICATION HEARING IS CLOSED

LOS ANGELES, Nov. 16.—Hearing on nine applications for permission to appropriate surplus water from the main San Gabriel river closed before the state division of water rights here yesterday after the city of Monrovia had presented its plea.

Monrovia asked permission to construct an impounding dam at the same site in Pine canyon that Pasadena seeks. Nine municipalities and private companies ask for a share in the water, a move vigorously opposed by other interests.

No date for a decision has been set.

The applicants are Pasadena, Monrovia, Alhambra, Long Beach, Whittier, Compton, Rubio Land and Water association, La Flores Water company and Glendora Consolidated Mutual Investment company.

SALVADOR MINISTER VISITS WASHINGTON

WASHINGTON, Nov. 16.—Dr. J. Gustave Guerrero, foreign minister of Salvador, returning from Geneva, arrived in Washington this morning for a two-day visit. Accompanied by Dr. Francisco Lima, Salvadoran minister, Guerrero visited Secretary of State Kellogg at noon and was to call at the White House this afternoon at 3 p.m.

Guerrero informed the United Press that Salvador will be represented at the sixth Pan-American conference at Havana by Dr. Francisco Lima, as chief of delegation and Dr. Enrique Cordova.

"The Pan-American movement has been growing favorably and there is every reason to anticipate a very successful conference at Havana," he said.

STANFORD OFFERED PASADENA CONTEST

PALO ALTO, Calif., Nov. 16.—Stanford has received an unofficial invitation to send its football team to Pasadena to represent the west in the annual New Years' day classic, it became known today.

The invitation to the Cardinals is understood to be wide open, giving them the preference over both the Trojans and the University of Southern California and the University of Washington previously mentioned in connection with the game.

The players on Coach "Pop" Warner's team considered the contest last night before practice and most of the team were reported to have been in favor of accepting.

The board of athletic control has decided to withhold its judgment until Monday.

WHAT? HAS JOHN NEW SWEETHEART?

SOUTH HADLEY, Mass., Nov. 16.—Publication of the story that John Coolidge, a student at nearby Amherst, escorted Miss Sarah Kunzis, of Mount Vernon, N. Y., to the first formal college dance of the Mount Holyoke season, is causing much embarrassment to the young woman concerned.

"It happened at the opening of the college season a long time ago," Miss Kunzis told the United Press when reached by telephone at Mountain View house, her college dormitory here.

"I cannot imagine how the story happened to be published at this late date. And I do not want any publicity concerning it. Two newspapers have telephoned me so far. The story is true. No—I'm just saying that I have no statement to make when people ask me whether I still see Mr. Coolidge."

Miss Kunzis is a sophomore at Mount Holyoke college.

No Reason For Sickness, Says Missouri Doctor

MEMPHIS, Tenn., Nov. 16.—"There is no reason why people should be sick," Dr. Finis L. Anderson, Springfield, Mo., told 2500 delegates to the 21st annual convention of the Southern Medical Association here.

"They should live to be 100 years old and even more," he said. "When a patient comes to me, I tell him he is not living right. invariably he thinks I am referring to his morals."

"But the worst crime a man can commit is not to eat the right kind of food for his constitution."

In Switzerland, Bulgaria and other mountainous sections, even in east Tennessee, where the people live simple lives, they frequently attain ages in excess of 100 years."

LA HABRA

LA HABRA, Nov. 16.—Members of the Queen Esther Circle will meet Saturday in the kitchen of the social hall to make green tomato pickles for the deaconess home in Los Angeles. Anyone who has green tomatoes or onions to donate may leave them with Mrs. D. Dundas.

Beginning next Sunday, a junior church will be conducted the first 15 minutes of the service at the Methodist church. Mrs. D. Dundas will be in charge and will tell a junior story for the children.

In observance of her nativity day, Mrs. Ross Hodson and Mrs. W. E. Canfield, of Whittier, entertained at the former's home for their sister, Mrs. E. E. Proud, principal of the Washington school, with a birthday dinner. Present were Warren Canfield, Mr. and Mrs. E. E. Proud, Mr. and Mrs. W. E. Canfield and Mr. and Mrs. Hodson and family.

The Rev. and Mrs. E. M. Sutton, recently of San Jacinto, and Mrs. Ross Hodson were dinner guests Sunday at the R. N. Hodson home.

The regular meeting of the Home and Foreign Missionary society has been postponed until the first week in December.

Dr. Ethel Truesdale, of Lamore, was a week-end guest of the Rev. and Mrs. D. Dundas.

Scientists Find Further Ruins Of Maya Civilization

Steamship Rate Agreement Gets Board Approval

BATON ROUGE, La., Nov. 16.—Eight students of Louisiana State University, including four members of the varsity football team, have been expelled for alleged participation in an epidemic of hair cutting hazing banned here since 1923.

The football men banished were G. A. Freeman, a regular; L. E. Halk, T. D. Holden and A. F. Aiken, second string men. There was some sentiment among fellow students to foment a strike to bring back the men, but indications were the threat would not be carried out.

During the hazing epidemic, several hundred freshmen had their hair clipped in grotesque fashion.

GUATEMALA, Nov. 16.—Archaeologists have discovered at Zanruins expected to add greatly to world knowledge of the ancient Maya civilization.

One of 12 monuments surrounding the ancient citadel was discovered first. This led to the unearthing of heavy walls inclosing the ruins of the highest pyramid yet discovered in Central America. It was surrounded by a double wall.

The ruins were of Maya temple.

Work On One Of Waterway Links To Start Friday

MORRIS, Ill., Nov. 16.—Ground will be broken Friday for construction of one of the remaining links in the lakes to the gulf deep waterway, Leslie Small, director of the state purchases and building department and son of the governor, announced here. Construction of retaining walls through Joliet, including main line servers and bridges, is the initial step.

Lockport and Marseilles dams already have been built and plans are ready for similar dams at Brandon Road and Dresden Heights.

GANGSTERS PREFER SAFETY OF CELLS

EXPORTS INCREASE; IMPORTS DECREASE

MARION, Ill., Nov. 16.—Two gangsters of southern Illinois, both awaiting trial for murder, would rather face the law than the vengeance of their former associates.

James Watson and Harvey Dungy escaped from the Williamson county jail. Both were charged with participation in the murder of Lyle "Shag" Worham.

Dungy, recaptured, admitted, "I'm plenty glad to get back in jail."

Watson made good his escape, but called the sheriff by telephone and inquired "if it would be all right to come back."

Both said they learned gangsters of both the Shelton and Birger gangs were gunning for them and said they would rather take chances with the law.

Dungy and Wats are former Birger gangsters.

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips Milk of Magnesia. For 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are imme-

diate, with no bad after-effects.

Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25¢ and 50¢ a bottle, any druggist.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.—Adv.

LANDIS ORDERED TO PAY BACK ALIMONY**SALLY UNABLE TO READ HER TICKET**

LOS ANGELES, Nov. 16—James Cullen Landis, screen actor, was ordered by Superior Judge Bowron to pay \$5600 back alimony, claimed by Mrs. Mignon Le Brun Landis, within 30 days. The fact that Landis has married again is no excuse for allowing the payments to fall in arrears, the judge ruled.

LOS ANGELES, Nov. 16—Judge Dudley P. Valentine wondered "What Became of Sally" until Sally Rand, 127 Wampas Baby star, called him on the telephone to explain just why she was not in court to answer a traffic violation charge.

"You see it was like this, judge," she explained, in a most convincing manner. "I looked at that tag and it was so dirty I misread the date of my appearance as November 25. And then I found out it was November 15. I'll be right around in the morning." Sally is charged with driving 35 miles an hour in a 20-mile zone.

G. W. Smith is able to be out after an illness which was caused by a number of infected teeth.

EXIT OF ADMIRAL MAGRUDER

"Good luck, Admiral!" we presume Rear Adm. Thomas P. Magruder (left) was saying to Rear Adm. Julian Latimer as this handshake was photographed. Magruder was turning over to Latimer the command of the U. S. navy yard at Philadelphia. Magruder was relieved of this post after he wrote critical articles about navy administration.

**HENRY FORD SPREADS GOSPEL OF OLD FASHIONED DANCES IN NEW BOOK IN COUNTY LIBRARY**

Henry Ford, creator of the automotive shimmy, the pedal shift and other aids to "necking" in transit, now advises California that ladies should be kept at arm's length.

And dancing should be on the square—square dances, to be exact, says the maker of automobiles.

Furthermore, Ford believes that cheek-to-cheek dancing must give way to back-to-back steps of the old days and that California should be the first to shift gears.

One can return to back-to-back dancing without becoming a back-number, he insists, and the real disciple of old fashioned Terpsichore can also avoid both back-slapping and back-biting.

At any rate, Henry Ford again has stepped out of cast and is spreading the gospel of the quadrille, the waltz, the Virginia reel and "The Girl I Left Behind Me" in every corner of California where jazz and fast-stepping have supplanted the old melodies and dances of yesterday.

To the state library and all county libraries, Ford, aided and abetted by Mrs. Ford, has sent a copy of his new dance book, "Good Morning," which carries an appeal for a return to the square and round dances and describes how each is executed.

"Good Morning" starts out with the preface that "After a sleep of twenty-five years, old-fashioned dancing is being revived by Mr. and Mrs. Henry Ford."

After the "Grand Square" in the Ford dance lesson comes the "Girl I Left Behind Me." One should hum:

"I take that girl, that pretty little girl."

"The girl I left behind me,
And pass right through, and balance too,

"And swing that girl behind me."

The words fit the movements, the automobile king points out. First couple lead to the right, balance, pass through; balance back-to-back, and turning swing the girl behind. Then: "The first gentleman with new partner leads to the next, passes through balances, turns and swings that girl behind him. And so, on with the dance, until he is back in original place.

For the initiated in old-time dance steps, Ford's book gives detailed information on how to execute quadrilles, The Lancers, novelty quadrilles, contra dances, the Minuet, the waltz and other round dances.

Ford may be old fashioned in some respects, but he prefaches his advice on arrangements by stating that if you intend to give a dance, first arrange for suitable refreshments. No mention of hard liquor is made, but there follows an intricate description of Lady Walpole's Reel, The Opera Reel and several other methods of reeling in the ballroom.

If you face a nervous breakdown, pack up your troubles in your dance slippers, says Ford, "for there is probably a physiological and psychological truth underlying the belief that dancing has a tendency to allay nervous trouble."

"Denunciation of the dance by the protectors of public morals," remarks the Ford publication, "has usually been occasioned by importation of dances which are foreign to the expressional needs of our people. With characteristic American judgment, however, the balance is now shifting toward that style of dancing which best fits the American temperament. One fault which has scored heavily against the ultra-modern dance is its 'one and one' quality. It begins and ends with a single couple. The group spirit of fun is absent."

GETS REPORTS ON DEATH OF SON IN TURKEY

Further details surrounding the tragic death of Bub B. Bollinger, 26, Costa Mesa resident, and son of Mr. and Mrs. M. N. Bollinger, of Costa Mesa, near Kirkuk, Turkey, on October 17, was received here today in a letter addressed to the father from F. Lewisohn of the Turkish Petroleum company, in London, England.

The younger Bollinger was an oil driller for the company, working at one of its wells in Turkey when he was overcome by gas and died. He is buried in the British cemetery at Baghdad, the services having been held early on the morning of October 20, according to the letter.

Letters forwarded to the London office of the company from friends of Bollinger at Kirkuk told a graphic story of the death of Bollinger and another American, Arthur Simmons, who also was killed on the same day.

The company's well had just

EXHIBIT MADE FOR CHILDREN AT LIBRARY

Santa Ana children have been presented with a valuable gift. It is an exhibit at the junior department of the city library to represent Book week.

It is a miniature country of childhood days amongst books. One enters through a high wide gate, painted gaily in colors of the rainbow. Inside the land of make-believe the traveler finds the lane to Fairyland, where the toadstool home of the fairies is found, and a wishing well.

On the way one passes the fiction house made of books. There is another lane which leads one into the land of travel, still another ends in the land of fine arts. Here a miniature doll artist is found painting a scene from Fairyland. Here also is the tower of music.

Nature books are represented by the Hallow Tree inn. In another corner one finds the "Thing-to-do land." Here is another small doll working over an anvil.

The land of history is represented by a Dresden doll clad in a frock of long ago standing near a miniature sun-dial.

On another table the librarian has placed a treasure chest. Amidst the pile of eight, the Spanish doubloons, pearls, diamonds, and other valuable jewels, are a number of books. Such books as have been given to the library, books which are too valuable, even to be circulated, books which are looked at, only under the librarian's watchful eye.

Included among the books which are especially sponsored by the library as appropriate for Book week are "American Boy Sea Stories, from American Boy Magazine; "As the Goose Flies" by Katherine Pyle; "Bibl, a Little Danish Girl" by Karen Michaelis; "Billy Bang Book" by Mabel Guinnip LaRue; "Blackfoot Lodge Tales" by George Bird Grinnell; "Boy of the Old French West" by Orison Robbins; "Captain Bloodheart" by Charles Dickens; "Cat and the Captain," by Elizabeth J. WILLARD WILL PRESENT PLAY ON DECEMBER 1

"Ali Baba and the Forty Thieves," has been chosen for the annual operetta of the Frances Willard Junior High school, to be held on the evenings of December 1 and 2 at the Poly High school auditorium.

Miss Esther Jean Davis, director of music at Frances Willard, assisted by Miss Dorothy Smith, will present the operetta.

The students have been practicing diligently for the past month and from now until the operetta will be given they will spend considerably more time practicing.

"Ali-Baba and the Forty Thieves" is a musical comedy in two acts, a prologue and an epilogue from the story of the Arabian Nights.

This operetta is especially attractive due to the foreign setting which demands much vivid coloring.

The plot is full of action, following very closely the story of Ali Baba from the Arabian Nights.

An extra song "Nobility" has been added which will be sung by the Prince of Ispahan, the part taken by Frank Bows. This additional song will be of special interest to Mrs. Edith Thatcher, vice-principal of the Frances Willard school, who wrote the words of the song and Miss Gladys Campbell, of Roosevelt school, composed the music.

The school orchestra, under the direction of Mr. S. J. Mustol, accompanied by Eunice Hoffman, will play a fine selection of pieces during the evening between acts. The orchestra is also working conscientiously on their part in the operetta.

Qualifications for a successful social service worker were named yesterday afternoon by Mrs. Carrie Leebrick, head of the county social service department, on the fifth of a series of vocational addresses being presented before the senior girls at the Santa Ana high school.

Mrs. Leebrick stated that a woman generally needs a college course in the study of social service work before she is fitted to continue with it. She also made a point of the fact that a woman must have a keen sense of humor before she can be successful in that line of work.

Mrs. Leebrick declared that there is great opportunity for women in this line of work.

INSURANCE AGENTS HEAR FIRE MARSHAL

Floyd Sleeper, newly appointed city fire marshal, was the principal speaker at the weekly luncheon of the Santa Ana Association of Insurance agents, held yesterday noon at Kettner's cafe. Sleeper spoke on fire hazards.

John A. Henderson, delegate to the state convention of insurance agents at Sacramento, made his report.

The dinner consisted of wild duck, furnished by Clifford H. Phillips, president. The members of the association are considering the advisability of making Phillips president of the club during the duck season every year.

FIFTY GALLON STILL SEIZED AT STANTON

A 50-gallon still, 15 empty mash barrels and other equipment for the making of liquor were found in a cave, 25 feet deep, near Stanton yesterday by deputy sheriffs, it was announced today.

The equipment was found on the Andy Bohine lease, one and a half miles south and one mile east of Stanton. According to officers, Bohine was not arrested for the simple reason that he is serving a 500-day jail sentence in the Los Angeles county jail on a liquor charge.

The still and barrels were de-

RANCHER FACES JURY TODAY IN TRAFFIC CASE

John Steenberg, 39, Irvine rancher, faced a jury today in Superior Judge Homer G. Ames' court on a charge of driving while under the influence of liquor.

Steenberg became involved with the law as a result of an accident on September 25 when his car is said to have sped from a side street and crashed into another machine on South Main street, injuring three people. He was arrested by officer A. L. Steward, and taken to the county jail.

The defendant is believed to have been drunk at the time the accident occurred. The injured people were E. T. Ladd who suffered a broken collar bone, Mrs. W. C. Gifford, who received a similar injury, Mrs. Ladd, who was cut and bruised. They were taken to their home at 1905 West Washington street after the accident.

Steenberg appeared on October 11 before Justice Kenneth Morrison, where he waived his preliminary examination. He was held to answer on the charge and bail was set at \$500.

SENTENCE PUT OFF FOR THREE YEARS

Charged with possession of intoxicating liquor, Paul Nordstrom, 32, 2104 South Cypress street, faced Justice Kenneth Morrison today to hear sentence postponed for three years, on a promise that the offense would not again occur. Nordstrom was arrested at his home by Officers Elliott and Huston. Only a small amount of liquor was found.

DISABLED VET TALKS BEFORE EXCHANGE CLUB

Asserting that one in every 10 men in France is a crippled or injured war veteran, and declaring that real poverty exists in France, William Murphy, president of the Orange County chapter of Disabled Veterans, speaking at the meeting of the Exchange club yesterday, urged patience on the part of this government in the matter of repayment of France's war debts.

Murphy was a delegate to the Legion convention in Paris and in his talk yesterday he touched upon some of the highlights of the trip, particularly recounting some observations that most impressed him.

The speaker took occasion to deny rumors that legionnaires were in France merely on a drunken debauch.

"I can say conscientiously and sincerely that I did not see a drunken Legionnaire on the streets of Paris, although there may have been some drinking in private rooms," Murphy said, and he added that at no assembly of the national organization before had as much real business been transacted as was given consideration and action at Paris.

The Santa Ana delegate made the observation and commented on the point that Frenchmen have a higher regard and better appreciate the wonderful performance of Col. Lindbergh than do the citizens of America.

"The follow up by the American Legion of Col. Lindbergh's trip to Paris was most opportune, and the two incidents have served to weld the two nations in closer friendship," Murphy said.

Giving utterance to the statement that it would be at least 10 years more before the French people will have returned to normalcy and resumed their former spirit, the legionnaire declared his belief that the United States should show the foreign nation every leniency in the refunding of its debt to America.

"Real poverty exists in France, and no one who drives out into the rural district can help being impressed with this fact," the speaker said, and he clinched his report by recounting an instance of his drive out to Chatteau Thierry.

"Children ran out into the street and in front of our car crying for pennies with which to buy soup," Murphy commented, adding "You do not see the true conditions if you visit Paris only—in the country districts is where you see things that point to the real condition obtaining in that nation."

The speaker also defended France against the charge that legionnaires were "held up" by prices they paid for everything. He asserted that the delegates were treated with every respect and consideration where they conducted themselves as real Americans should.

Charles D. Swanner was program chairman and introduced the speaker.

During the business session, suggestion was made by Stanley Clem that wives of members organize an Exchange club for the purpose of assisting the Exchange club in execution of some of its plans. Each member was directed to carry the suggestion to his wife, and Swanner was charged with responsibility for seeing that something concrete resulted.

LA HABRA PLANS TO DO ITS OWN TAXING

The city of La Habra plans to do its own tax assessing and collecting, an ordinance to this effect passing for first reading at last night's session of the city council. The measure was turned over to City Manager Paul Pratt for study and recommendation.

Pratt announced at the meeting that the standards for the new light system had arrived and would be installed in the near future. The lights will be placed in the business district.

La Habra's taxes are handled by the county tax office at present.

CITY DADS ENJOY DINNER OF TROUT

"Catch 'em, cook 'em and eat 'em."

This virtually was the rule prevailing at a trout dinner at Forest Home yesterday in which members of the board of supervisors, Santa Ana city council, secretaries of chambers of commerce and prominent men of the county participated.

Approximately 80 men were in the party and upon arrival at Forest Home were given lines and invited to fish in the ponds there for trout—and they did, and they caught plenty. Frying pans and fires were at convenient points and it is declared by J. M. Backs, county clerk, that most of the men cooked their own catches.

It was declared a delightful occasion, and one that each individual would like to repeat. After the lunch hour the group visited Santa Ana's camp site at the resort, and in the evening most of the members of the party attended the annual duck dinner of the National Orange show management at San Bernardino.

The officiating clergymen, both close personal friends of the deceased, paid tribute to the sturdy and Christian character of Mrs. Morris, and commented on her life as a pioneer, a mother and a wife.

"The Old Rugged Cross" and

"Tell Me the Story of Jesus" were

sung by Mr. and Mrs. James Hester

Owls, accompanied by Miss Hester Covington.

Pallbearers were four grandsons, Lloyd and Herbert Morris and Harvey and Morris Webster, Vester Summers and Will Obarr.

FUNERAL FOR MRS. MORRIS HELD TUESDAY

With the Rev. Moffett Rhodes, pastor of Spurgeon Memorial Methodist church, South, officiating, and the Rev. Paul Wright, former pastor of the Christian church here, assisting, friends paid their last tribute of respect yesterday afternoon to Mrs. J. W. Morris, pioneer of Orange county in services held at the Smith and Tuttle chapel.

SPORTSMATTER

BY
FRANK GETTY
UNITED PRESS SPORTS EDITOR

Dr. Otto Peltzer is sailing from Germany today to pay us a visit. In case you do not immediately place the doctor, he is the middle distance runner who recently defeated the better-known Paavo Nurmi and created seven new world's records for distances ranging from 500 to 1500 metres—the only genuine, honest-to-goodness champion developed in Germany since before the war.

The last German middle distance runner—and the only one I can recall—was even approximated the performances of Dr. Peltzer was Heinrich Braun, who gave Charley Redpath such a great battle in the 400 metres run at the Olympic Games in Stockholm in 1912.

The conqueror of Nurmi, Wide and other Scandinavian runners is coming to the United States on a friendly visit, and has no intention of competing in this country.

Dr. Peltzer will spend some time in New York, will visit Chicago, and then will go on to San Francisco, where he will spend the holidays with friends of his family.

Afterwards, the German runner will go on to Australia, where he may start in a few races if conditions are suitable.

It is interesting to learn that Dr. Peltzer is making the trip chiefly to avoid the cold, damp German winter. He is anxious to be fit for the Olympic Games at Amsterdam next year and fears that the dampness of his native land may aggravate his frequent attacks of rheumatism.

Here is one of the world's greatest athletes, a man who has smashed a number of internationally recognized records and who needs no introduction to American track fans other than word that he showed flying heels to Paavo Nurmi, afraid of rheumatism.

Inquiring about this, I learned that as a boy, Dr. Peltzer suffered terribly from this affliction, and that at the age of seven he was confined for an entire year in a wheel-chair!

Before he was able to leave Germany, Dr. Peltzer had to overcome obstacles placed in his way by the German Amateur Athletic association. Those in this country who are familiar with the tendency of our own governing athletic bodies to become over-zealous at the slightest provocation, can sympathize with the good doctor.

The German Amateur Athletic association attempted to forbid Dr. Peltzer to travel to the United States, on the ground that he needed a rest.

Germany has been bending every effort for more than a year to discover, develop and condition new athletic material, and the doc is the flower of the flock. But he is an independent cuss, as well.

"Bah!" he told the authorities, and likewise, "Pooh-pooh! Whoever gave you the right to tie me up in red-tape and keep me in my native land? You are meddling in my private affairs. Me for the United States and some of that good needle beer!"

The doctor said this right out loud, and wrote it for the newspapers, showing that in Germany today a man may speak his mind, to say nothing of running half a mile in 1:50.

SANTA ANA SPORTSMAN PLANS ENTERING TWO RACING CARS IN ASCOT SPEEDWAY CLASSIC

William S. (Bill) White, wealthy young Santa Ana sportsman and racing patron, has entered two costly cars in the inaugural A. A. A. dirt track classic to be held November 27 at the rebuilt Ascot speedway in Los Angeles. White is the son of Mrs. Rachel White, 129 West Nineteenth street.

George Souders, the 25-year-old youth who amazed the racing world last May when he won the annual 500-mile international classic at the famous 2 1/2-mile Indianapolis brick track, probably will pilot one of White's entries, with Doyt Atha, young racing driver of the east, listed to hold the steering wheel of the Santa Ana man's other mount. Souders drove one of White's machines at Indianapolis.

White, who has just returned from the racing campaign on the big eastern board speedways, shipped his two powerful race cars direct to the rebuilt Ascot speedway from Salem, N. H., the speedway where Frank Lockhart, contest board.

TEX RICKARD READY TO BET \$200,000 THAT TUNNEY WILL FIGHT FOR HIM NEXT SEASON

NEW YORK, Nov. 16.—Developments in a rift between Tex Rickard and Gene Tunney today centered on Tunney's intimating that he may announce that he is through with Rickard while Rickard replied that "if any one thinks Tunney is not going to fight for me, I'll bet him \$200,000 Tunney is."

Tunney informed the United Press that he has legal advice which says that clause in his contract with Rickard makes it possible for him to break the contract. Also he said that he had received a responsible offer for a bout next summer under which he would receive \$100,000 more than Rickard's contract promises.

Tunney followed with an enumeration of grievances against the promoter, among them being a declaration that "Rickard has

never done anything for me" and "Rickard doctored the pictures of the Chicago bout and also the Dempsey appear to a better advantage."

Wempsey appears to a better advantage."

S. A. GIRLS IN EVEN BREAK AT COURT TOURNAMENT

Of all the teams that engaged in the Orange county high school Playday basketball tournament yesterday at Fullerton, Santa Ana's senior girls' aggregation rolled up the largest score when it defeated Brea-Olinda's ensemble by the overwhelming total of 67 to 4.

The juniors, however, did not fare so well in their match with Orange high school, returning defeated 31 to 15.

Seven of the high schools of the county were represented in the tournament. Inside and outside courts were filled as all 14 school teams were playing simultaneously. None of the schools was more successful than Santa Ana in winning and losing one game.

An easy victory was gained by the seniors, using perfect team work. The Santa Ana senior team is acknowledged as perhaps the strongest senior team in the county while the scrappy Brea-Olinda team took virtually the entire personnel of the senior class. Miss Rowena Cone, credited with 26 points, was high scorer.

A desperate battle was waged by the juniors to check the Orange team but to no avail, exceptional playing by the Orange centers, the Misses Cahr and Crawford, being a factor in the Orange victory.

Stellar honors for the Poly juniors were awarded to Miss Elsiebell Hurd, forward, who scored eight of the Santa Ana points, and Miss Mildred Sherwood, reserve center, who was outstanding in breaking up the Orange defense.

The lineups:

Santa Ana Seniors	Brea Seniors
Cone (26).....F.	Frances
Ellis (19).....F. (4)	Menev
Surgeon.....C.	Wilcox
Thornton.....G.	Garrison
Pea.....G.	Coggins

MANDELL JABS WAY TO FISTIC VICTORY

CHICAGO, Nov. 16.—Sammy Mandell jabbed his way to a decision over Spug Myers here last night but failed to show the knockout punch his followers claimed he had developed.

Mandell, holder of the lightweight championship did not defend his title as both he and Myers were above the lightweight limit.

He mixed freely with Myers for 10 rounds in an effort to disprove the contention that he is a powder-puff champion, but his attempts to floor his opponent were pitifully futile.

Willard Loses To Artesia, 2 To 0

Unable to solve the puzzling slants of Pitcher Henry, Frances E. Willard junior high school's indoor ball team lost a 2 to 0 game to Artesia school yesterday. The clubs were tied at 0 to 0 until the fifth when Neurio singled in two runs for Artesia. The lineup: Willard: Salazar, p.; Musselein, c.; Cox, 1b.; Gibbs, 2b.; Lutz, 3b.; Mort, rs.; Quon, ls.; Nugent, lf.; Sanchez, cf.; Woodrow, rf.

FOOTBALL BRIEFS

SOUTH BEND, Ind.—Tired and bruised from two hard football games, Notre Dame's team is indulging in little work. The fight against Army and Minnesota has left the players fairly well bruised.

DENVER.—Coach Allen of the Colorado School of Mines will conclude hard scrapping activity tomorrow when his men will entrain for Provo to play Brigham Young university.

SAN FRANCISCO.—The far western grid championship will be settled here Friday when St. Mary's meets College of the Pacific.

CORVALLIS, Ore.—Indications are that for the first time this season the Oregon Aggies will have a full strength football team next Saturday when they meet the Idaho Vandals at Portland. Montgomery, guard; Gilmore, and Avrit, backs and Whitlow, half, all of whom have been injured, are out on the field again.

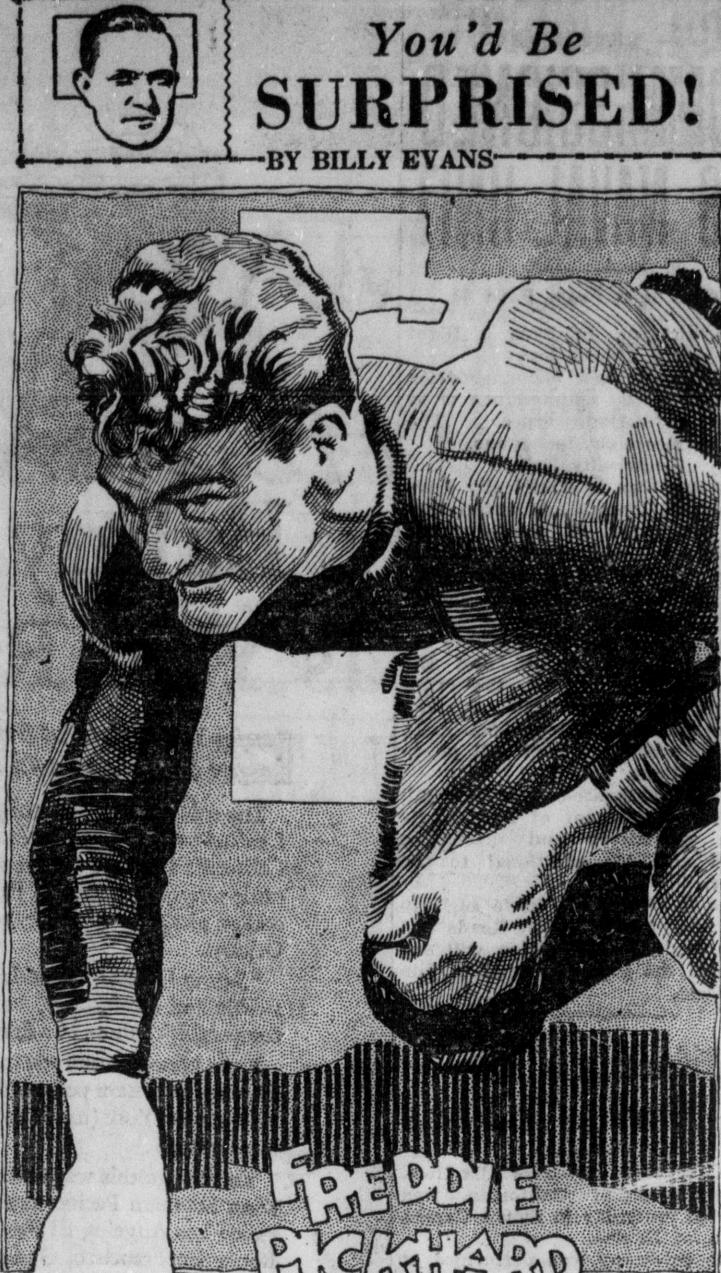

EUGENE, Ore.—After a complete rest of several days, the University of Oregon football team today resumed practice for the final game of the season against the Washington Huskies at Seattle Thanksgiving day.

have been back in the game inside of 10 days, at the most," says "Red."

The urge of the coach, the skill of the trainer and the old college spirit which makes you yearn to get into the big game, even before you are ready for play, would have hastened my return."

While Grange rather evades the question, I am inclined to think this will be his last year in football. He feels that he has a future in the movies and intends to confine himself to that endeavor.

Grange has had a number of offers to coach, but has spurned them all. "That is the toughest job in the world, not excepting that of a big league baseball manager," is the way "Red" puts it.

ALL PRAISE FRIEDMAN

Getting back to Benny Friedman. He continues to play the same spectacular game as a pro as he did in college. This hasn't been true of Grange. Perhaps that explains the opposite stand they have taken on the professional sport.

"He's the greatest football player I have ever seen," is the way an All-American end who turned professional this year sizes up Friedman.

If there ever was a triple-threat player, Friedman is the guy," was the remark of a famous southern guard now identified with the pro game.

Friedman has six threats instead of three. He can pass, also receive, he can run through a broken field, he can carry the ball, he can kick and how that baby can think."

WHAT AILS BROWN?

What's the matter with Brown? No doubt Coach Tuss McLaughry, the miracle man of 1926, would like to know.

Last year, at this time, Brown's eleven iron men and Coach Tuss McLaughry were hogging the sport spotlight and deservedly so.

This year, much the same team has lost five straight games, being defeated by Penn, Yale, Lebanon Valley, Temple and Dartmouth.

The trio of defeats by Yale, Penn and Dartmouth could be swallowed by the comparatively unknown Temple and Lebanon Valley eleven are not sitting very well with the alumni and under graduates.

Apparently there is something seriously wrong at Brown. It doesn't seem possible that much the same team could show such a decided reversal of form within a year.

At the close of the present season, it isn't unreasonable to expect that the Brown situation will be thoroughly aired and possibly a logical explanation offered for the unexpected slump.

INSIDE DOPE COMING

Recently I had a chat with a scout of one of the Big Ten teams who has been doing some grid missionary work in the east. He informs me that the gossip in that section is that all is not harmony in the ranks of the Brown eleven.

The report is that several members of the team came to blows in the club house at the conclusion of the game with Lebanon Valley, which was lost 13-12, in one of the

POLY SHOCK TROOPS TO START CONTEST

eleven in their clash with the Compton team, undefeated leaders of the Southern California Junior College conference at Compton Saturday.

Coach Bill Cook is going about his chores with a seriousness that is foreboding. All the favorable dope is on the side of the Compton ensemble. Coach Cook admits that the league leaders by the very fact that they are undefeated so far this season have decidedly the edge for the conflict, but he says the powerful drive of the Compton eleven is to be met with a deceptive attack that may succeed in baffling the would-be champions.

Students of the college are backing the Santa Ana team wholeheartedly. Another caravan of cars under police escort will attend the game. The match will be the last far away from home and the next to the last of the season.

In league standing, Santa Ana is entirely out of the race for the pennant of the conference. Three defeats have been tacked on to the college aggregation and whether or not Santa Ana wins Compton seems assured of the title.

biggest upsets of the year.

Football isn't a parlor game and it isn't at all unusual for players to nurse beautiful black eyes. Several Brown players were so ornamented after the Lebanon game, which possibly started the rumor that has swept the east.

The report has been strongly denied by the athletic authorities at Brown, so take it for what it is worth. However, Brown's real ailment is yet to be diagnosed.

ORANGE COUNTY GROVE HEATERS DUE FOR TESTS

Citrus growers of Orange county who are equipped with orchard heaters for the winter season are urged to make use of the weather bureau service in testing their orchard thermometers. Ross Shafer, manager of the Tustin Frost Protection association, announces that an arrangement has been made with the frost survey division of the weather bureau to collect all thermometers submitted for test on November 21.

Thermometers may be delivered to the nearest citrus association packing house in the various districts of the county any time this week, up to and including November 19. Harold Rathbone, assistant meteorologist, will collect the instruments on Monday. Shafer suggested that the grower's name be written on a sheet of paper and tied to each instrument to be tested. Paste or glue should not be used because the thermometers are immersed in water during the test and glue would loosen.

All instruments should be tested even if found accurate in previous years, it was declared. They have been found to vary a degree or two in many instances. Efficient management of heaters during the critical period is based on the use of accurate instruments from which accurate readings of the actual temperatures may be made, it is pointed out.

250 ATTRACTED TO CITRUS LECTURES

Two hundred and fifty citrus growers attended the short course last week at Orange union high school, held under the auspices of the agricultural extension service. This was a record attendance, according to H. E. Wahlberg, farm advisor, who has been informed by the university authorities that the highest previous enrollment was 201. Each session was well attended.

The staff members of the college of agriculture and the experiment station who lectured during the course included R. W. Hodgson, associate professor of subtropical horticulture; H. J. Quayle, entomologist, citrus experiment station; W. R. Schoonover, extension specialist in citriculture; Harry Smith, entomologist, citrus experiment station; Dr. Ralph H. Smith, associate entomologist, citrus experiment station, and H. E. Wahlberg, farm advisor.

The subjects discussed embraced fertilization, irrigation, pest control, orchard protection and other related phases.

A field tour closed the sessions Saturday, in which 150 growers participated. Stops were made at the W. W. Perry grove, Villa Park, to examine windbreak protection; H. Bakenhus grove, El Modena, to study mottle leaf of citrus trees; Hewes ranch, El Modena, to observe the double treatment for purple scale control, and the E. E. Campbell grove at Orange to see the deep penetration of roots on Orange trees planted in 1875. A trench was dug in the latter grove to facilitate the examination of roots.

Old Buddha Is Given Germany

BERLIN, Nov. 16.—Lovers of art will soon find a rare Buddha exhibited at one of the state art collections at Berlin.

Many people who never have to take a laxative eat a candy cascara now and then. Do you know why?

They have found that cascara sweetens the whole system—brings an insatiable person that means everything. It prevents bodily chemistry from ever making one unconsciously offensive to others. And what a perfect regulator of the bowels!

Salts affect the lining of the bowels. Mineral oils leave a coating that the blood must carry off through the pores. How much better to cascara the system, and cause the bowels to expel everything by normal muscular contraction! To say nothing of the cleaner, sweeter condition that lasts for days—a wholesome condition that makes the use of deodorants quite unnecessary in January and February. Cascara is a perfect sweetener, and my boy and I both love the candy.

HOW INNOCENT a drug can be—and how helpful! I'm done with purgatives that leave even a child's system so acid you can detect it in the perspiration. A little cascara is a perfect sweetener, and my boy and I both love the candy.

RESOLUTION OF INTENTION

No. 1843
A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SANTA ANA, CALIFORNIA, DECLARING THEIR INTENTION TO ORDER THE PAVING AND OTHERWISE IMPROVING OF CERTAIN STREETS IN THE NORTH LINE OF TRACT NO. 352, RECORDED IN BOOK NO. 15, PAGES 15 AND 16, MISCELLANEOUS MAPS, RECORDS OF ORANGE COUNTY, CALIFORNIA, TO THE EXISTING WATER MAIN AT THE SOUTH LINE OF FAIRVIEW AVENUE IN SAID CITY, DECLARING THE SAID WORK AND IMPROVEMENTS TO BE OF MORE THAN LOCAL OR ORDINARY PUBLIC BENEFIT; DECLARING THE DISTRICT TO BE BENEFITED THEREBY AND TO PAY THE EXPENSES THEREOF; DETERMINING THAT BONDS SHALL BE ISSUED TO REPRESENT SAIL COSTS AND EXPENSES, AND FIXING THE TIME AND PLACE FOR HEARING OBJECTIONS TO SAID WORK OR IMPROVEMENT, OR TO THE EXTENT OF THE DISTRICT TO BE ASSESSED.

The City Council of the City of Santa Ana, pursuant to the provisions of the Improvement Act of 1911 and the Improvement Bond Act of 1915, and amendments to said acts of revenue and expenditure.

Section 1. That the public interest and convenience requires, and it is the intention of the City Council of the City of Santa Ana, California, under the provisions of the following described work and improvement in said City, to-wit:

That Parton Street in said City, from the North line of Tract No. 352, as recorded in the above mentioned Book 15, Pages 15 and 16, Miscellaneous Maps, Records of Orange County, California, to the existing water main at the South line of Fairview Avenue be graded and paved with Portland Cement Concrete pavement from curb line to curb line, and where cross streets intersect the grading and paving shall be extended to the curb line to the extended property lines of said streets, all as particularly described in and in accordance with the plans and specifications hereininafter mentioned; and where the paving joins existing paving and at all intersecting streets and alleys where paving does not now exist, the paving shall have a thickness at the paving lines equal to the specified thickness of the slab and taper uniformly to the specified thickness in thirty (30) inches, all as particularly indicated on and in accordance with the plans and specifications hereinabove mentioned.

The excavation for and construction of Portland Cement Concrete Curbs upon and along the above described Street, all as particularly indicated on and in accordance with the plans and specifications hereinabove mentioned.

The excavation for and construction of Portland Cement Concrete Sidewalks upon and along the above described Street, except where sidewalks now exist, all as particularly indicated on and in accordance with the plans and specifications hereinabove mentioned.

The excavation of trenches and the furnishing and laying therein of Salt Glazed Vitrified Clay Pipe Main Sewer, together with Manholes, Flush Tank, and all necessary appurtenances thereto, upon and along the hereinbefore described street and connecting with the existing sewer at the North line of Tract No. 352, to a point forty (40) feet South of the South line of Fairview Avenue, all as particularly indicated on and in accordance with the plans and specifications hereinabove mentioned.

The excavation of trenches and the furnishing and laying therein of Class "B" Cast Iron Water Main, Including Fire Hydrant, Valves, Concrete Valve Box, and all necessary connections thereto, upon and along the hereinbefore described Street from and connecting with the existing cast iron water main at the North line of said Tract No. 352 to the existing cast iron water main at the South line of Fairview Avenue, all as particularly indicated on and in accordance with the plans and specifications hereinabove mentioned.

The excavation of trenches and the furnishing and laying therein of Class "B" Cast Iron Water Main, Including Fire Hydrant, Valves, Concrete Valve Box, and all necessary connections thereto, upon and along the hereinbefore described Street from and connecting with the existing cast iron water main at the North line of said Tract No. 352 to the existing cast iron water main at the South line of Fairview Avenue, all as particularly indicated on and in accordance with the plans and specifications hereinabove mentioned.

The excavation of trenches and the furnishing and laying therein of Wrought Iron House Service Connections, including all lead connections, copper and coals, curb cocks, fittings and all necessary hardware and fixtures thereto, from the cast iron water main to be installed as hereinbefore described at right angles to the main and extending to a point one foot back of the curb, all as particularly indicated on and in accordance with the plans and specifications hereinabove mentioned.

Together with such other work or improvements as are noted on the plans or specifications which shall be considered as incidental to the above described work and improvement, and no additional compensation will be allowed therefor.

The work to be done as herein set forth shall include the furnishing of all labor, equipment and materials necessary for an appurtenant to the construction and completion of all work herein specified.

PLANS, PROFILES, CROSS-SECTIONS AND SPECIFICATIONS.

Section 2. All of the foregoing work is fully set forth, delineated and described on the plans, profiles, cross-sections and detailed drawings known as the Plans for Assessment District No. 149, and are set forth in the specifications known as "the specifications for Assessment District No. 149," which plans, profiles, drawings, detailed drawings and specifications are on file in the Office of the City Engineer and are hereby referred to for the full and detailed description of the said proposed work or improvement, and adopted by Resolution No. 1836 on the 7th day of November, 1927, by the City Council of the City of Santa Ana as the plans, profiles, cross-sections and detailed drawings and specifications for said work at the Office of the City Engineer, to whom said profiles reference is hereby made for the description of such grade.

DESCRIPTION OF BONDS.

Section 3. That the grade to which the work shall be done and the improvements made which are provided for in this Resolution shall be the grade as set forth in the plans, profiles, cross-sections, detailed drawings and specifications hereinafter adopted and as shown on the profiles referred to in the Office of the City Engineer, to whom said profiles reference is hereby made for the description of such grade.

DESCRIPTION OF ASSESSMENT DISTRICT.

Section 4. That the City Council does hereby declare and determine, and notice is hereby given, that serial bonds to represent unpaid assessments and to be entered into at a rate of six per cent per annum will be issued hereunder, in the manner provided in the "Improvement Bond Act of 1915," the last installment of which bonds will mature in nine (9) years from the 2nd day of July next succeeding ten (10) months from their date.

DESCRIPTION OF ASSESSMENT DISTRICT.

Section 5. That the contemplated work and improvement hereinbefore mentioned is in the opinion of said City Council to be more than local or ordinary public benefit, and the expense of said work and improvement is made chargeable upon the district hereinbefore mentioned, and said City Council does hereby declare said district to be the district hereinbefore specified by said work and improvement and to be assessed to pay the costs and expenses thereof, which district is bounded and described as follows:

Located in the City of Santa Ana, County of Orange, State of California, and particularly described as follows:

Want Central Site

Reports have been spread that San Francisco has the largest number of pledges right now, but some committee members have expressed a desire for a site more centrally located. This has brought Kansas City to the fore. Detroit is new ground and will be given serious consideration by the Democrats if the Republicans decide whether indictments or no true bills are to be returned.

On Friday, two new phases of the drama arising out of the Fall-Sinclair mifrial will be under way.

At that time there will be a hearing on the petition of Juror Edward Kidwell for contempt citations against Don King, reporter and J. Ray Akers, conductor.

King and Akers swore they conversed with Kidwell and heard from him the alleged observation that he expected, in event of Sinclair's acquittal, to get a car as long as this block."

Serious Felonies Possible

If indictments come, serious felonies will be named.

Meanwhile a special committee of lawyers has been summoned to determine if the dramatic events and charges of the past month here, starting with the opening of the Teapot Dome Oil trial October 17, there were deeds warranting the halting of some of the principals before their ar on court contempt charges.

Seek Blackmer Return

Meanwhile it was reported the government had sent out instructions to its European diplomats to get extra busy in serving H. M. Blackmer and James E. O'Neill, missing key witnesses in the Teapot Dome case, with subpoenas to appear when Sinclair and Albert E. Fall, former secretary of the interior, go on trial again January 16.

The courthouse was clear of Burns agents today for the first time in two weeks. The government during its presentation of about 100 witnesses to the grand jury had kept these young men—jury shadowers allegedly hired by Sinclair for sinister purposes—waiting in the corridors for frequent summonses.

CASE AGAINST ALLEGED CHECK FORGER FAILS

BALBOA, Oct. 16.—The case of Paul Gordon, alias Clinton, St. Clair, and Normant, charged with forgery, in which the complaining witness was the Pacific-Southwest bank, Pasadena, was dismissed for want of sufficient evidence in Los Angeles yesterday. Gordon is to be tried later on the charge of forging a bond.

The case aroused much interest in Newport and Balboa. Gordon is alleged to have passed a number of checks on his employer, Mrs. T. R. Harriman, while she was absent. He married, purchased a new car and carried on building operations on checks, issued against the account of Mrs. Harriman, it is asserted. He was instructed to deposit a bond, it is asserted, and instead forged it and appropriated the money to his use, it is said. Before being apprehended he is said to have gone to the bank and obtained the cancelled checks against the account, thus obliterating the evidence against him.

Another complaint against him is pending in San Diego, according to reports.

Iowa Partners Purchase Store

ANAHEIM, Nov. 16.—Renewing a business partnership, L. L. Hall, well known resident of this city, and Ed McConaughay, a newcomer here from San Diego, have purchased the Jagers' grocery, 811 South Philadelphia street, and will henceforth operate the enterprise under the firm name of Hall and McConaughay. It was announced today.

Some 12 years ago the two men dissolved partnership in a grocery and dry goods store in Allerton, Ia., after several years' friendly and profitable association. For a time the course of events took them along different paths. Hall coming to Anaheim eight years ago and McConaughay to San Diego some four years ago.

\$125 Realized By Beach Auxiliary

NORTH BEACH, Nov. 16.—A meeting of the American Legion auxiliary was held Monday evening, when the results of the recent rummage sale held in connection with the women's clubs were discussed. A total of \$125 was raised to be used in welfare work. Mrs. Lydia Finster and Mrs. Edna Fink were hostesses. A food sale in charge of Mrs. Finster will be held at Costa Mesa in the near future.

Have Color In Cheeks

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 20 years.

Olive Tablets are a purely vegetable compound mixed with olive oil. Know them by their olive color.

You have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like castor oil, but have no after effects. They start the bile and overcome constipation. Take nightly and note the pleasing results. Millions of boxes sold yearly. 15c, 30c, 60c. All Druggists.—Adv.

MENUS for the Family

BY SISTER MARY

BREAKFAST—Baked pears, cereal, thin cream, crisp rye toast, macaroon, rice griddle cakes, milk, coffee.

LUNCHEON—Pork patties with apple rings, creamed potatoes, celery and cabbage and carrot salad, bean rolls, stewed figs, milk, tea.

DINNER—Salmon loaf, creamed peas, date and orange salad, cucumber rings, graham bread, custard pudding, milk, coffee.

When oranges do not figure as the breakfast fruit they can be used some other time during the day as in the dinner salad. Navel oranges are preferable for a salad, since the pulp of this variety of orange is firm and can be removed from its encasing tissue in neat whole sections. The Florida orange, juicy and sweet and altogether perfect for the breakfast juice, is too soft to lend itself to use in a salad.

Pork Patties

Three-fourths pound lean pork, 1 cup stale bread crumbs, 2 tablespoons flour, 1 egg, drippings.

Put pork through food chopper and combine with crumbs, 1 scant teaspoon salt and 1/4 teaspoon pepper. Mix thoroughly and add egg unbeaten. Mix with a fork until well blended and stir in milk. Form into flat little cakes and saute in hot drippings in a frying pan. The fat should be very hot when the patties are first put in. Brown quickly on one side and then turn and brown on the other.

FAULTLESS STARCH for your Curtains

Curtains advertise your housekeeping. Clean, crisp, evenly laundered curtains make your home attractive. You can launder your curtains often with Faultless Starch because it is easy the Faultless way.

Whatever the material—muslin, sateen, lace or marquise—Faultless Starch will give your curtains that clean, plain look of new curtains. No corners out of shape, no stiff folds or rents.

Satisfactory service in millions of homes for more than 40 years—that is the record of Faultless Starch.

WOMEN—SOCIETY—THE HOME

ELEANOR YOUNG ELLIOTT

MEMBERS OF JUNIOR LEAGUE WEAR SMART EVENING GOWNS

By BETSY SCHUYLER
NEA Service Writer

NEW YORK, Nov. 16.—The "little season" this autumn seems to have become so formal and elaborate in its entertainment and costumes, that I find myself wondering just how unbelievably whirling and gay the real winter social season can be!

As if there were not enough parties to keep them busy, many of the Junior Leagues have volunteered lately to aid a series of charitable events.

And however successful all of these affairs are, the costumes that the fair fashionables attend them in are even more so. Never, I swear, could evening clothes have been more glitteringly, flatteringly, stunningly lovely.

Trees Tell-tale Lines

Three lines of these garments tell the tale—hemlines, neck-lines and waist-lines. There are various new and intricate versions of the down-in-the-back line that introduce organ pleatings, bustle bows, shaped trains and pointed tiers.

These lines protect her ears from frost. A smashing pink flower on one shoulder illustrated the blending this season of shades that used to swear at each other.

Hanna chose a soft green velvet, figured in modernistic design. It was simply cut, with gorgeous long shawl collar and deep cuffs of white fox. It was lined with shell pink velvet, the same shade as her sweet chiffon gown under it.

This having one's evening wrap and gown match is about the last word of style this smart season. For of course, it presupposes one has fully as many wraps as one has gowns. Which might mean—no one knows how many!

Short Skirt Record Won By Berlin

By HEDDA HOYT
United Press Fashion Editor

BERLIN, Nov. 16.—The shortest skirts in the civilized world are in Berlin. And, we might add, the longest legs in the world are in the German capital.

Imagine, if you will, skirts as short as bathing dresses, on frauleins of ample proportions, swaying to the steps of the Charleston in smart tea gardens. The effect is astounding, for, believe it or not, these frauleins certainly have some understanding.

Until we arrived in Berlin we considered the knee-cap the limit where skirt-lengths were concerned. We were foolish enough to believe that the skirt race was between American flappers and girls of the French demimonde. In Paris we decided that the Americans had won the race by two inches. But a Berlin girl on Broadway would certainly knock the socks out of the wise-crackers!

In Berlin, they don't roll 'em, my dears! Instead, stockings are as long as trapeze artist's tights. One gets the impression of staunch bodies with wide hips, wide shoulders and correspondingly wide legs set on badly shaped long-toed shoes. Just now the Charleston and the South American tango are considered a little swankier in Berlin than one-steps, waltzes and the like. And, until you've seen a short-skirted German fraulein waltz her knees through the languid steps of the Tango with her face set on getting somewhere—you've not seen anything.

Of the so-called smartly dressed girls in Berlin, I cannot recall a skirt which even touched the knee-cap. Some were fully four inches above the knees for walking purposes. You can imagine what this length would be for dancing or sitting down.

Well, whatever the German maids set out to do they usually accomplish. The war of skirt-lengths has been won! And Berlin wins the cut-glass garter! There's no use trying, flappers! The North pole has been reached!

THE TINYMITES

STORY BY HAL COCHRAN — PICTURES BY KNICK

REG. U. S. PAT. OFF.

(READ THE STORY, THEN COLOR THE PICTURE)

All o'er the ground the Tines spilt the pumpkin, and they soon were filled. "I cannot eat another bite," said Clowny, with a grin. I feel ashamed to stuff and stuff but now, at last, I've had enough. No need to take another bite. I couldn't force it in."

And Scouty said, "That's how I feel. That surely was a dandy meal. I'm going to find a cozy place where I can get some sleep. I'll bet the trees up on that hill would be just fine for use, and still I guess we cannot climb there 'cause the hill is much too steep."

"Oh, don't be fussy," Crappy cried. "Let's flop down on the streamlet side. The sun's been shining on the sand and we will not be cold." So out they stretched upon the ground. It was a comfy place, they found. They had no fear in dozing off, for they were brave and bold.

When morning came the sun shone bright. Then Clowny jumped. "It's broad daylight," said he. "Get up, you lazy bunch." And up jumped all the band. They rubbed the sleep out of their eyes.

John Muir Teachers
Are Complimented
At Party

Last night, the principal and teachers of John Muir school were complimented by members of the executive board of John Muir P.T.A. and grade mothers of the school, at a party in the attractive home on Mrs. Walter Hiskey on South McClay street.

Baskets of garden flowers and mountain holly created a harmonious setting for the unlimited hospitality of the home. Eloise Hiskey, young daughter of the home, received the guests and assisted in introductions.

The early part of the evening was given over to wit-sharpening games until card tables were produced, after which bridge and 500 were enjoyed. Mrs. Wyckoff proved the most skillful bridge player while Mrs. Steven carried off honors in 500. Miss Helen Kennedy and Mrs. Dahl were fully content for their low scores.

A two-course supper was served on daintily arranged tables. Orange colored pompons, holding tall tapers of the same bright hue, centered each table, with nut-cups to correspond, at each place. All lights other than candles, were extinguished, and it was in their friendly glow that the supper delicacies were enjoyed. Mrs. Hiskey was aided in serving by her two daughters, the Misses Margaret and Catherine Hiskey, and by Mrs. Alberts.

Those present were Miss Marie Siebert, principal, Mrs. Mitchell, Mrs. Lulu Galbraith, and the Misses Alice Grimshaw, Linda Mueller, Helen Kennedy, Stella Mueller, Florence Hullsick, of the school staff, and Mesdames Holmes, Theo Reuter, Whiting, Steven, Dahl, Gammell, Kaufman, Hullsick, Grimshaw, Allen, Alberts, Brock, Scott, Wyckoff, Herman Reuter and Miss Mary Eisenbaum.

THE MAKING OF A NEWSPAPER

SKETCHES BY BESSEY

SYNOPSIS BY BRAUCHER

After a page is "made up" with news and advertising matter, all on lines of type, the page is wheeled to the stereotyping department where a matrix is made of it. The page is rolled under tremendous pressure against a flat piece of cardboard which retains the impression of the page.

By N.Y.A. Through Special Permission of the Publishers of The Book of Knowledge, Copyright, 1923-26.

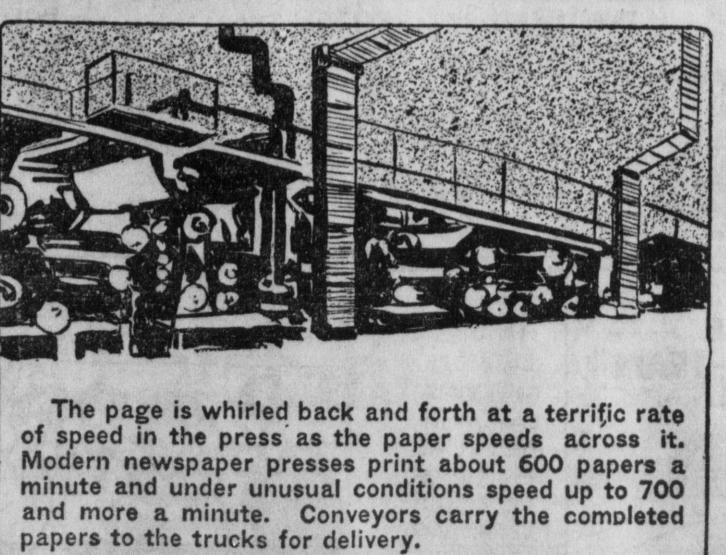

This impression, or matrix as it is commonly called, is then placed in a casting box and lead is poured over it.

The page, now cast into one leaden piece, sometimes flat, sometimes semi-circular, is fitted to its place on a newspaper press.

Sketches and Synopsis, Copyright, 1927, The Groller Society.

The page is whirled back and forth at a terrific rate of speed in the press as the paper speeds across it. Modern newspaper presses print about 600 papers a minute and under unusual conditions speed up to 700 and more a minute. Conveyors carry the completed papers to the trucks for delivery.

ANNOUNCEMENTS

RANKINS' SONGSTERS, a musical organization whose members are drawn from the staff at the Rankin Drygoods store, will present a concert on the second floor of the store, Friday evening at 8 o'clock, under the direction of Mrs. Charles E. Hurd. Admission to the musical event will be by card, so those desiring to hear it, should apply to some friend on the staff. There are 18 Songsters, to be heard in solo, duet and ensemble numbers, varied by several readings.

THE ROOSEVELT P.T.A. assisted by the teachers, will present a program in the kindergarten room of the school, Friday night at 7:15 o'clock. Every child in the school will be featured. Proceeds from the small admission asked, will go to a fund to buy chairs for the auditorium.

EBELL'S STUDY SECTION will meet tomorrow afternoon at 2:30 o'clock in the clubhouse, having advanced the date a week in order not to conflict with Thanksgiving plans of members.

THE OLD TIMERS' CLUB will give a dance tomorrow night in the large hall above the McCune Furniture store on West Fourth street. A program of modern and old-time dances will be offered, and the affair will be repeated each Thursday night during the winter.

THE PAST MATRON'S ASSOCIATION of Hermosa Chapter, O. E. S., will meet Thursday in the Home cafe, for a 1:15 o'clock luncheon. Members who will be present are asked to telephone Mrs. C. W. Ellis, 1615 W., not later than Wednesday noon.

SANTA ANA COUNTRY CLUB members are anticipating the November dance, to be featured next Friday night at the clubhouse. Manager F. T. McGilvray has announced that an excellent orchestra has been secured, and a delightful evening has been planned. It will be strictly informal, and guests may be included in the groups by payment of a small fee.

JULIA LATHROP MOTHER-SON BANQUET, will be held at the Y. M. C. A. Friday night at 6:30 o'clock. The I. X. L. Club of the school is sponsoring plans for the affair, and has chosen a football theme for decorations and program. The speakers will be Coach G. A. Oliver of Polytechnic high school.

YOST BROADWAY THEATER We feel that we can pay "Les Misérables," the picture now showing at the Yost Broadway theater, no greater or more sincere compliment than to say that it is Victor Hugo's story come to life. The children of his brain take shape before us and suffer and rejoice again through the genius and enterprise of these French artists. One feels that were the author himself able to witness this film, he would agree that no literary work has yet been translated into the language of pictures more sincerely or with greater restraint and humility. That it has been a labor of love for all concerned is apparent from the opening scenes to the death of Jean Valjean in the finale.

WHITE SHRINE will meet Thursday night for a 6:30 o'clock pot-luck supper at K. P. hall.

ROSCOE H. COOK is not representing us, in our employ or connected with us at all.

and power, demand individual comment. Naturally, the dominating role is that of Jean Valjean—as woodcutter, thief, convict, mayor—or hunted by the upholders of law and order and helped by the servants of God. Gabriel Gabrio acts this difficult part with restraint and understanding, and clearly delineates the progress of his slowly awakening conscience, until his final act of supreme self-abnegation—his release from death of Javert, his arch-enemy and persecutor. This performance will linger in the memory, and stand as witness to the value of utter lack of theatricality in screen characterization. Javert, too, is very finely played by Jean Toulout, and for the first time we realize this man not merely as the villain of the piece, but as a man driven by a stern sense of justice to perform his duty, soullessly and fearlessly, even to his own self-destruction, because, in a brief moment of pity, he let his prisoner go—tacitly for ever.

For the past two years, ever since she created "Sandy," Madge Bellamy has temporarily cast aside her flapper personality to play the part of a dainty Irish miss in "Colleen," which is now showing at the West Coast-Walker theater.

But in "Colleen" she proves that she has not forgotten how to be a little country maid. She makes of Sheila Kelly, a girl with a temper of her own, but with wit, beauty and charm to boot.

"Colleen" is the story of two race horses, two old Irish squires and an Irish lad and lassie. Frank O'Connor, whose lapses into brogue would betray his nationality if his name and face did not, was in his favorite element while directing this picture.

The well chosen cast supporting Miss Bellamy includes Charles Morton, J. Farrell Macdonald, Tom Maguire, Marjorie Beebe, Sammy Cohen, Ted McNamara and Sarah Padden.

TEMPLE THEATER

Thrills, baffling mystery and intriguing adventure on the high seas—all these, Bert Lytell's screen comedy, "Mickey," is playing this week at Murphy's Orana theater, with clever little Miss Mercedes Lowrie in the title role. Charles G. Perley plays the male leading part and the two are supported by the regular Murphy cast consisting of Billy Evans, Herbert M. Shelley, George Mathison, Bob Alderman, Aasta Pierce and Louise Hale.

The play is a sure pleaser, with plenty of suspense, good dramatic situations and clear comedy.

"Mickey" will be followed by "Cinderella O'Riley" with Miss Fay Life in the leading part. This will open next Sunday night.

FIND ANAHEIM MAN GUILTY IN ASSAULT CASE

Inolved in the affair. Jewell is alleged to have brandished a billiard cue with the threat that he would kill them.

The two women are said to have escaped over a fence, after which Mrs. Jewell agreed to give up the boy, and the battle ended. Warren Jewell, a nephew of the defendant is said to have attempted to restrain his uncle, who told him, according to the testimony, that he should be ashamed of himself.

A jury in Superior Judge Homer G. Ames' court late yesterday found W. J. Jewell, of Anaheim, guilty of simple assault as a result of an asserted battle for the possession of his children at the home of M. C. Blake, of Anaheim, on October 23. The defendant entered an application for probation through his attorney W. P. Webb Jr. The hearing was set for November 25. Chief Deputy District Attorney L. W. Blodgett prosecuted the case.

Jewell is said to have forced an entry at the home of Blake, his father-in-law. His two children were staying with his wife and he alleged that he was entitled to see the youngsters on that day. Jewell was refused permission to take the children on the ground that he had failed to pay his alimony. He was told that if he couldn't support them, he should not be allowed to entertain them.

After he got into the house, Blake and he began scuffling and the struggle took them to the front yard, where Mrs. Blake and Mrs. Jewell are said to have been in-

A BETTER POLICY

There are two ways of buying a used car:

1—Buy it outright from the owner.

2—Or buy it from an automobile dealer.

The first may be satisfactory, providing, of course, you are an expert mechanic, appraiser, and purchasing agent combined. A better policy is the second method.

New car dealers buy used cars with a view of reselling them. They know exactly what each needs to be re-conditioned thoroughly. They have the facilities for doing that.

Right now we are offering amazing values in used cars. Every one is in tip-top condition—fine in every respect. They are priced to sell, and WILL SELL at the prices we have tagged them.

Here are 30 acres of land, the kind you dream about; a silt, rich, high ground, sensitive to the least care and productive beyond belief.

Twenty acres of it, now used for truck, show its fertility; 10 acres in walnut show its adaptability. For an orange grove it would be supreme, for asparagus it cannot be surpassed.

Some place, you'll say—however it is true and can be purchased, land, pumping plant, house, and all for \$34,000 now.

EVENING SALUTATION
 There is a tide in the affairs of men,
 Which, taken at the flood, leads on to fortune;
 Omitted, all the voyage of their life
 Is bound in shallows and in miseries.
 On such a full sea are we now afloat
 And we must take the current when it serves,
 Or lose our ventures."

—Shakespeare in "Julius Caesar".

THE GIRLS WHO CONTRIBUTE TO WEALTH

Kresge is reported to have lost ten million dollars in the stock market in 1923. People should be permitted to do as they please with their own, but we can well imagine that the young girl clerks in Kresge's store would have been immensely helped on the road to happiness could a portion of this ten million dollars have been added to their pay envelopes.

VARIED MORAL STANDARDS

One may well wonder as to what moral conduct really is. The standards are so different among different people. We are prone to think, however, that among Anglo-Saxons they are the same and we like to think of our British cousins thinking in the same way about conduct that we do. But now comes the National Council of Public Morals of Great Britain and approves the policy of birth control. This is bound to startle and stagger some leaders in the United States though undoubtedly the sentiment of this country is more in harmony with this British pronouncement today than it would have been had such an announcement been made ten years ago.

"DISTANCE LENDS ENCHANTMENT"

We are not interested in any unusual degree in the personal relations that exist between Ruth Elder and her husband. They both insist that everything is all right and happy between them and as distance seems to be the main thing that is between them, and it is being lengthened as her husband is now on his way to Balboa, Panama; we can well imagine that some people are so "all right" together that they are much happier when apart.

Undoubtedly many marital ventures which are now reaching the rocks would be continuous as far as the courts are concerned if each party to the contract were as separate in their plans and separated by as great distance as these two have been. A great way to get along with some folks is to move away from them.

WHAT'S WHAT IN MEXICO

The Hearst papers are using pages in their papers publishing communications which indicate that the Mexican government was backing up the liberal forces in Nicaragua, headed by Sacasa. These letters, on their face, make it appear that President Calles and his government were directly behind Sacasa, furnishing the forces with money with which to buy guns and ammunition.

We note that representatives of the Mexican government declare that these letters which purport to be signed by Mexicans in high authority are forgeries and that these same letters had been offered Mexicans in this country and they refused to buy them. Of course it will probably be impossible to ever determine whether these letters are forgeries or not. If they are genuine it is not very probable that the one who stole them from the archives will ever come out and confess it. And even in case he did, his word would amount to little, for to a man who would be as big a traitor as that to his country, lying and perjury would be a virtue! And we don't quite see what it is all about anyhow. Certainly the Mexican government never pretended that it was anything but friendly to the liberal forces in Nicaragua and all knew that it was furnishing every power that it was able to furnish because it claimed to believe that Diaz was a usurper.

The play between Mexico and our own government for control in Nicaragua is not such as to command a lot of pride either by Mexico or by us. But very evidently our country was at least more open and frank about its activity and yet it may be possible that there were some things covertly done that we would hate to have some traitor in the state department expose on us. There is a great deal extremely dishonorable about this transaction somewhere. It may be both on the Mexican government and on its traitorous officials.

TRADER HORN

Fortune is very freakish, and hits in very strange places. Here is an old fellow in South Africa who for years has been peddling one thing and another from door to door to the people of the veldt. Nobody thought his life career of any interest, or that he had any meaning for the world at large. But one day he chanced to come to a home occupied by a discerning and literary woman. She listened to his experiences and his racy talk, and suggested to him that he write his story down. He did it, and she revised it and polished it up somewhat. The result is the book called "Trader Horn," one of the most interesting and one of the best selling books on the market. It is reported that the book is selling over the whole English-speaking world, and is to be translated into other languages. The royalties for the old trader is making him rich, as Dr. Johnson once said, "far beyond the dreams of avarice." It is said that the old trader is getting \$4000 a month out of the sales of his book. Pretty good, we should say, for a man who has been peddling all his life.

It was Emerson who once said that the man who made a better mousetrap than any other man would have the whole world coming to his door. Many a man whose occupation has been menial, and whose contribution apparently slight, may have the possibilities of Trader Horn, if only some one would discover him. President Eliot of Harvard, twenty-five years ago, wrote the life story and the world-worth of a coast of Maine fisherman by the name of John Gilley. It is a charming little biography.

Here was a man who had only been away from his island home but once in his life, and that was when he sailed with a cargo of rocks to Boston. His life was spent in furnishing milk and vegetables for

the summer folk who throng the Maine coast in his region. He was drowned in a late fall trip after carrying the milk and vegetables to a family which had been held, because of the illness of a child, from returning to the winter home. President Eliot figured that John Gilley had made a richer contribution to the world than many a man whose name is written large on the page of history.

Surely the life of old Trader Horn peddling over the lonely veldt in South Africa, and the life of John Gilley as told by President Eliot, reveals worth and greatness in some common men which is not always recognized.

A Seasonal Warning

Oakland Tribune

At this season of the year the state sounds a warning to those who, for the sake of adding a touch of color to their homes, would despoil the property of others and the beauties of outdoors. Particularly does it warn those who would do wholesale destruction and raid the slopes for berries and trees to offer on the market.

One may not cut Christmas berries or trees without permit from the owner of the property from which they are taken. The law will be enforced with all of the power at the command of state authorities and there will be no leniency for offenders.

This does not mean that berries and trees, taken from private property with permission, harvested from areas devoted to their commercial growth, will be in poor taste. Christmas green and red will be in abundance and for that there is cause for joy. The warnings and the laws are for the vandals and in their enforcement the state has the support of the public. Those who have had the foresight to cultivate the seasonal decorations will see to it that the greens and reds are not lacking.

The Long Argument

Imperial Valley Press

Mr. and Mrs. George Bucher of Los Angeles had a long argument about the place where the knives ought to be placed on the table. Martha thought they ought to lie on the right side of the plate, and Charles thought otherwise. The argument began during their honeymoon and lasted for 37 years. Then Martha got tired of it and asked for a divorce, and got it.

The woman, of course, always has her way in such matters sooner or later. Charles might have known that. But what intrigues most of us is the fact that any argument was possible in this case, and what Charles' idea was about the matter.

Was he left-handed, and determined to have a left-handed household, or even a left-handed world? Or did he want the knife laid behind the plate, so it wouldn't get mixed up with the spoons? Or if he was right handed like most men, did he want the knife put in some position where he would be less tempted to pick it up and eat peas with it?

By Such Sacrifices Man Pierces Nature's Veil

San Francisco Chronicle

There is a somberness of epic mystery about the death of Captain Hawthorne C. Gray eight miles above the earth. He pitted man's insistence and slowly growing knowledge against unchangeable laws. He wrested another half mile from the hitherto unconquerable domain of nature. The instruments in his balloon show that it reached 42,500 feet in height, about eight miles. But we shall never know if he were alive at that height. Eight miles! How short a distance on the earth's surface! How contemptibly insignificant in the cosmic scheme! How long and weary a road for man to climb in the upper air! How infinitesimal a flight compared with that which the gallant airmen has taken and which no man-made instruments can record!

Building For the Future

Pasadena Star-News

California is outgrowing its highways. Many of them are too narrow to accommodate the extremely heavy volume of traffic which has developed. A manifest need is to widen the narrower highways. And in building new roads, the width should be abundant enough to take care of traffic increase normally to be expected. Highways should be built, not alone for the traffic of today, but for the traffic of five, ten and fifteen years hence. There should be length of vision and breadth of vision in planning and constructing highways. It is economy to construct now with adequate facilities for the growing future.

CARE OF MOUTH DEFECTS GROWS IN IMPORTANCE

In the gradual specialization of medical science, the care of the mouth has been found to be of so much importance as to demand a special group of physicians who consider its defects primarily.

Dr. L. L. Hartman of the School of Dentistry of Columbia University has recently prepared a small manual on the teeth and the mouth which discusses in question and answer form some of the cases which most disturb the mothers of growing children.

Removing Stains

One of the most prominent questions is how to remove green stains on the front of the teeth. Dr. Hartman suggests that a small piece of absorbent cotton be wound on an applicator, barely moistened with tincture of iodine and applied over the stained surfaces.

A paste is now made by moistening a little powdered pumice with water and then with an orange-wood stick flattened at one end this pumice paste is rubbed over the tooth surfaces until the stains are removed. Any paste remaining in the mouth may be removed with cotton dipped in a solution of boric acid.

Gum Boils

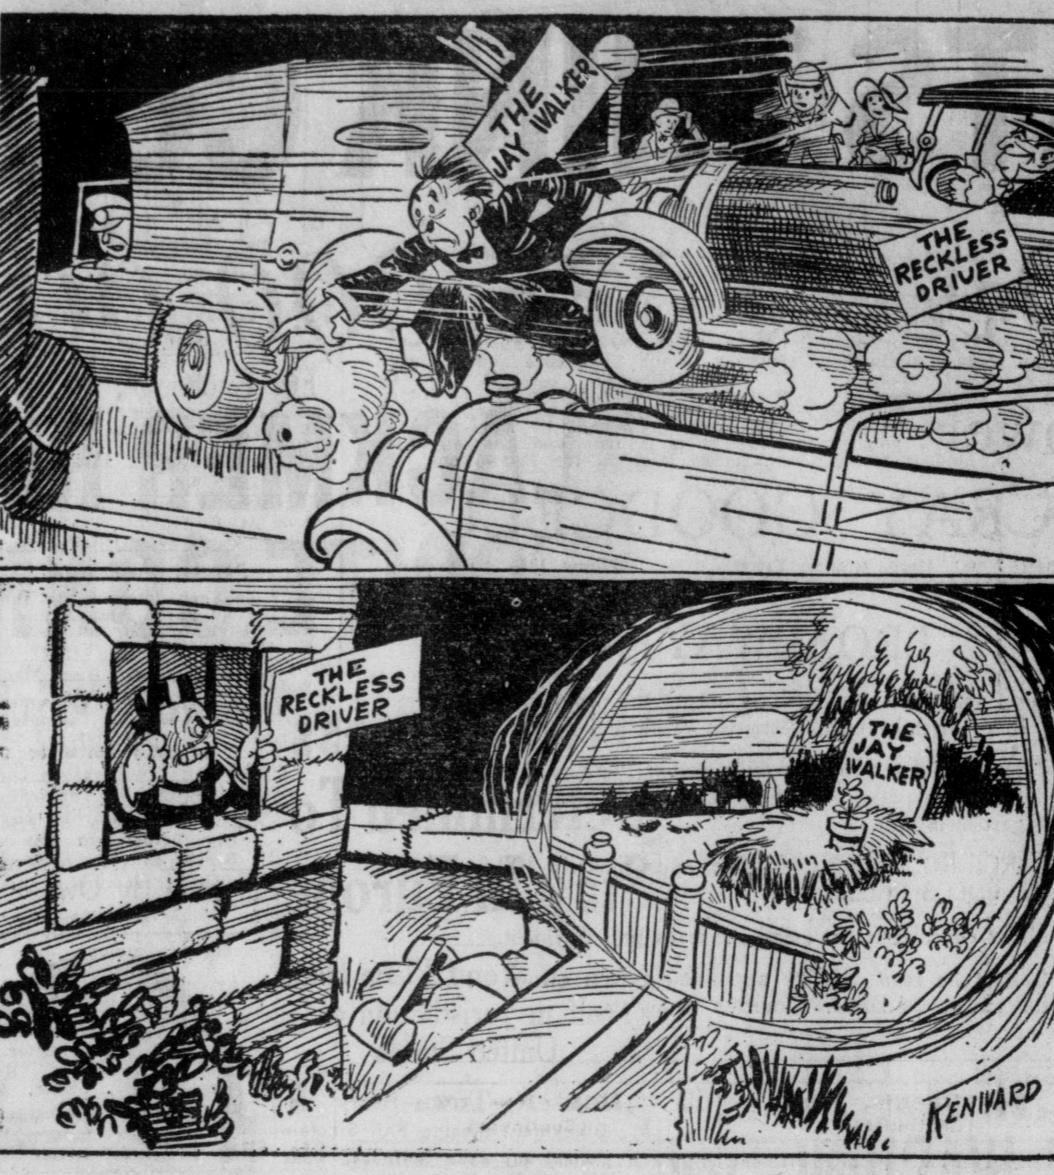

Gum boils in the mouth of the child are usually the result of infected teeth and demand dental attention. The period between five and six years of age is especially important to the future health of the mouth, because at this time the first permanent molars, the four most important teeth, make their appearance.

During this period frequent visits should be made to the dentist to make sure that these teeth are properly formed.

These four teeth come into position and lock together so that they act as pillars to support the jaw. Since it is their duty to keep the jaws in proper relationship to each other while the temporary teeth are being substituted for the permanent ones, they affect the entire shape of the mouth and of the jaws.

The most common cause of discoloration of the teeth is decay. Other causes are decomposition of the pulp, bleeding, and the use of various fillings materials that tend to oxidize and change their color.

When Fool Meets Fool

Just Folks

SHIRKING

It is my pleasure now and then
 To stray the links with golfing men,
 Or when the snow's on field and ridge
 I like a friendly game of bridge,
 Or, left alone, within a nook
 I can be happy with a book.
 Oh, need I set it down in rhyme
 I've many ways to spend my time.

Tis not the joys of life which irk,
 The only tyrant here is work.
 And while my task's not really hard
 I find, somehow, that I regard
 Its sharp insistence day by day
 As interference with my play,
 Why should I toil the whole day through
 When there's so much I'd rather do?

I've noticed sitting by the pane
 Of some swift moving railroad train
 Instead of tilling up the land
 The farmers at a fence rail stand,
 Letting the useful minutes fly
 Merely to watch the cars go by,
 Preferring that beyond a doubt
 To rooting last year's corn stalks out.

Oh, how men waste their time, I say.
 And yet I know with every day
 Temptation swings me from my course
 Later to fill me with remorse.
 I find I'd rather read than write,
 Rather play bridge with friends at night,
 In truth, I have this mental quirk,
 It is so easy not to work.

Everything that a champion should have has,

Our Unknown Heroes

Gene Tunney, world's heavyweight champion, strolled about the Union depot in Albany, N. Y., for half an hour the other day without being recognized. Not even newsboys knew him.

This seems to us an unprecedented occurrence. Since the days of John L. Sullivan we never have heard of a boxing champion going anywhere unrecognized. A professor of science who discovered some element that revolutionized mankind's habits of life might walk in the bright sun unknown, but not a boxing champion! Perish the thought!

Barbs By Tom Sims

Secretary Wilbur, after reading the published criticism of the navy by Admiral Magruder, said he was greatly interested. Having relieved the admiral of his command at the Philadelphia navy yard, he may even send Magruder to Guam just to prove how really interested he was.

Since it is their duty to keep the jaws in proper relationship to each other while the temporary teeth are being substituted for the permanent ones, they affect the entire shape of the mouth and of the jaws.

Newspapers are peculiar sometimes. For instance they insist on mentioning George Haldeman, who was only a pilot for the trans-Atlantic flyer, Ruth Elder.

We know what the new Ford is going to be. A barber from Detroit told us. It will be a copy of the Rolls-Royce, the only difference being that it will either fold, stack or flatten into a space where no Rolls-Royce could squeeze.

Many an attorney, like necessity, knows no law.
